

**-Onerahi School**  
**Digital Technologies User Agreement**

Digital technologies and devices such as Chromebooks and iPads are learning tools that help us to explore our interests, find new information, and present our learning in exciting and interesting ways. When we use digital technologies and online spaces it's important to be safe and make positive choices in the ways we behave online, because we leave behind a digital footprint: what we do and share online is there forever. These are all key parts of being a digital citizen.

At Onerahi, digital citizenship is made up of the following key aspects:

**Student Statement:**

I know about the ways I should use devices and online spaces for learning. I know that if I am not meeting the expectations of a digital citizen at Onerahi School, I could lose the right to use school technology.

I have revisited this agreement with my current teacher at the beginning of each year:

**Name:** \_\_\_\_\_

**Year 1:** Signed \_\_\_\_\_

**Year 2:** Signed \_\_\_\_\_

**Year 3:** Signed \_\_\_\_\_

**Year 4:** Signed \_\_\_\_\_

**Year 5:** Signed \_\_\_\_\_

**Year 6:** Signed \_\_\_\_\_

**Parents/Caregivers**

- I have read this agreement and understand my child's responsibilities when using digital technologies
- I understand that there may be consequences for breaking this agreement
- I give permission for my child (above) to be given access to digital technology and the internet
- I understand that the school has no authority with what students do online outside of school hours
